# ABOUT US

The company was founded in 2015 as Foreign Trade Company in 2017 we started to build the factory on 35.000 m<sup>2</sup> closed area. But for sure our experience relies on many years of manufacturing sales and marketing activities. While planing for this big investment we made a well-rounded study to make sure to be a leading company in our field.

Creating a dynamic structure to suit and adapt to each market demand was our first path, this was the source of adopting facilities with full automation system with superior technolgy making it easy to meet the changing market needs worldwide. With an annual capacity of 70.000 tons deversified into 4 categories consisting of Biscuits, Wafers, Marshmallow Biscuits & Cakes, lately we'll be adding chocolate bars and candies.

Business advisers say that the alimentary industry in Turkey is saturated and any entrant faces huge obstacles. For us, at Lark these obstacles are serious the established factory chains and the vending machines. Yet we cover not, we sincerely believe in our skills of management, process and marketing in addition to our relying on our sense of customer care and after sales services.

A wooden sign with rounded corners hangs from a light-colored rope. The sign is positioned in the upper center of the frame. The background is a textured, light-colored surface, possibly a wall or fabric, with soft, dappled shadows from sunlight filtering through. The overall mood is bright and airy.

MARSHMALLOW

A wooden tray is partially visible in the bottom left corner, containing a purple ribbon.
